Document ID: MP06	Document Title: Environmental Policy		

ENVIRONMENTAL POLICY

Transcutan will act to protect the environment and prevent pollution through responsible work:

- Reduce negative climate impact and prevent work related incidents and accidents.
- Comply with current legislation and established requirements and cooperate with authorities.
- Consider what is environmentally justified, technically possible and economically reasonable.
- Search for solutions to lower overall environmental load which promote recycling regarding product development, production, marketing and sales.
- Reduce the relative consumption of raw materials and energy and reduce the relative amount of waste.
- Where appropriate, collaborate with suppliers to reduce their environmental impact.
- Train and inform employees in environmental work to sustain continuous improvement.
